

MOTIVATIONAL LETTER

1

July/23/2017

Dear Roberta Marranca

I would like to express my interest in applying for my study in Rangjung Yeshe Institution because i was born in a buddhist family with a experienced in plethoras of empowerment and oral transmission of Zgonpa Zhangdhal from H.H Tsetrul Rinpoche, Dunjom Treasure from H.H Dungsé Thinley Norbu Rinpoche and H.H Dunjom Yangsi Rinpoche and Kaling Shedruk empowerment from H.H Penor Rinpoche and other etc.

Despite that I got inspired from my parents to pratice dharma. My father is an old practitioner yogi of sherpa origin. He is a m discipal of many great rinpoches. He stayed 15 years of vajra klaya and retreat at vajrakilaya cave in pharping. H.H Dilgo khentse Rinpoche also advised him to build his own monastery but he choose the life of hermit.

Ever since I was a child my father told me inspiring stories of many great tibetan buddhist masters and also taught me about virtue and non-virtue. The course offered at Rangjung Yeshe institute contain a number of unique element that provide students with a rich and inspiring learning experience like

2
classes are held in traditional monastery near the Great Stupa with the skilled language instructors, great professors (Khenpo) in modern methods.

On the other hand many opportunities exist to meet and receive teachings and blessings from resident lamas as well as practicing rituals, dharma. The fact is that in this dark age practicing dharma is only the way to get free from the chain of the mundane world (samsara). To translate Buddhist dharma into English is very vast and helpful to those who are interested in Buddhism. It is very necessary because we usually don't talk about dharma in the same breath as money in this period. However, many thousands of people are interested in Buddhist doctrine and institution of Buddhism.

In the end, it is my summary that studying Buddhist course and practicing dharma and implementing like the great masters to serve beings in my near^{by} future is a key role in once of a human precious life so I want to study in Rangjung Yeshe Institution. Thank you so much for considering it positively and granting me scholarship for my study.

Your student
Yeshe Gyamtso.
